Internships

- Front-end developer** *Code Nimbus Solutions Private Limited* **1 June - Present**
 - Developing dynamic and responsive web applications using React.js.
 - Creating reusable components that can be used in different places to save time and effort.
 - Implementing state management using React hooks.
 - Integrating front-end components with backend APIs to fetch and display data.
- Web developer** *Central Coalfields Limited* **1 Sept 2023 - 30 Sept 2023**
 - Created interactive web pages using HTML, CSS and JavaScript.
 - Applied responsive web design techniques to make the website adaptable to various devices and screen sizes.

Projects

- To-do app** [\[Link\]](#)

Created using React.js and Tailwind CSS. Used local storage to store the Todo tasks so that the tasks do not get removed even if the website is refreshed.
- Personal portfolio** [\[Link\]](#)

Created using React.js and Tailwind CSS. Contains interesting animations and responsiveness is handled to make the website adaptable to various screen sizes. Also contains a workable form to contact me.
- Textify** [\[Link\]](#)

A text modifier app which allows you to format the text in the way you want. The modified text can also be downloaded either as a text file or as a pdf file. It has been created using React.js and Bootstrap.
