Projects *(Along with live link)*

- **A Portfolio Website**:

  Created by using MERN, Tailwind CSS and MongoDB as the database. It is a full stack project which is fully responsive along with some animations.

- **A To-do-list Web Application**:

  Created by using React JS and Tailwind CSS. I have used local storage for storing the to-do tasks so that the tasks will not get cleared until removed manually.

- **A Simple Calculator**:

  Created by using HTML, CSS and JavaScript. It is a fully responsive web applications where all the functionalities of the calculator is implemented and it shows result in real time not when clicked on "=" button.
